**BOMSHELL AT THE CHOWCHILLA-MADERA COUNTY FAIR**

**CHOWCHILLA, CALIFORNIA, March 19, 2010-** Bomshel, a Country Western Duo, will be performing at the Chowchilla-Madera County Fair on Friday, May 14, 2010 at 8:00PM. Bomshel is know for their hits such as 19 and Crazy and Fight like a girl.

Kelley and Kristy are musical counterparts and best friends. The girls had their first serendipitous meeting at a show in Michigan. Kristy describes it as, "The first time I got nervous to follow another artist on stage was after seeing Kelley perform. She doesn't just stand there and hold a microphone, she entertains her audience and puts on a SHOW."

Well known for their vivacious personalities and sense of musical adventure, the Curb Records duo displays their more pensive side on the hit "Fight Like a Girl." The song engaged country radio and served to whet appetites for Kristy and Kelley's new project, a well-crafted collection that finds the talented twosome hitting their stride as songwriters and vocalists. Several years of touring have given them an extra measure of confidence in what they wanted to say and how best to say it.

This album is the product of two friends, a guitar and lots of morning coffee. "We came together at what could possibly be the most creative time of our lives. We had both gone through serious, "break up's" if you want to put it that way, and we met as Yin and Yang writers looking for an outlet. Every song you hear it's going to be us. You'll hear our fun side and our sad side. We have some really traditional country on there and some really poppy stuff" Kelley said.

**PRESS RELEASE**

---

Kelley grew up singing in local venues in Phoenix Arizona, where she used to introduce herself at ten years old, as "Curb recording artist Kelley Shepard!" She say's, "I wanted to BE Leann Rimes, and I knew she was a Curb artist. Look at how crazy life is, I am a walking testament that dreams come true!" Kelley got her first break after sending a tape into the Ellen Degeneres show, where she was noticed by singer, Brian MckNight who began developing her early song writing career.

Kristy is from a small town in Idaho, and started out touring the Northwest and Canada in a group called the Fiddler's Hatchery at four years old. She say's she knew she wanted to be a country singer after watching Garth Brooks play New York on TV. "I saw him coming in on a helicopter, and thought...I could TOTALLY do that!" "I am a ski racer, a horse rider, and a self diagnosed adrenaline junkie. I knew that anything I got myself into had to be very real, and very fun. Bomshel represents that."
